

Fellow American,

The collapse and carnage that is unfolding abroad and at our border is a true glimpse into the unmitigated disaster of Joe Biden and his administration.

I was heartbroken and disgusted by the Biden administration's reckless departure from Afghanistan that left Americans behind. Our people deserve better. [**Join my campaign to bring back strong leadership to America.**](#)

As a medical student at the Philadelphia VA hospital where I worked with veterans, I witnessed first-hand the sacrifices made by our men and women in uniform.

While I supported leaving Afghanistan, I believe President Biden displayed an utter dereliction of duty by surrendering to the Taliban. *The tragedy that ensued will weigh on our shoulders for years to come.*

On the homefront, Biden has failed us as well: the surge of undocumented migrants crossing the Border has not slowed down since he has taken office. [**Pitch in here to secure our border and put Americans first once again.**](#)

If left unchecked, this will not only become an economic disaster but a complete humanitarian catastrophe. [**Americans can not endure another catastrophe of this magnitude.**](#)

As Commander in Chief of the United States, Joe Biden has failed us.

Such a display of weakness on the world stage would not have happened under President Trump's leadership.

I refuse to be led by such an incompetent leader any longer. His failures go far beyond political partisanship. Joe Biden's sickening actions should outrage every patriotic American. The U.S. is supposed to be a defender of democracy and a protector of its allies.

This administration is out of touch with the American people -- and we are sick of it.

As Pennsylvania's Senator, I will always put the people FIRST.

Thank You,

Dr. Oz
